RELEVANT EXPERIENCE

Growth Tools, Remote — *P/T Front-End Developer*

JUNE 2019 - JANUARY 2020

- Built and improved front ends for new and existing websites
- Collaborated with lead developer, designer, and CEO over Slack
- Used basic Git commands extensively while interacting with company's remote repositories

TopCoder, Remote — *Independent Contractor*

NOVEMBER 2016 - OCTOBER 2018

- Competed in 40+ UI Prototype projects for TopCoder clients
- Converted wireframes in Photoshop and Sketch to responsive front-end prototypes
- Collaborated with project managers remotely on project requirements, issues, etc.
- Repeatedly willing and excited to jump into projects w/o sufficient experience and learn along the way
- Competed onsite at the 2018 TopCoder Open in Dallas, TX

EDUCATION

Udacity, Online — *Front-end Developer course*

MAY 2016 - NOVEMBER 2016

Provided me the foundational knowledge required of a front-end developer.

RECENT PERSONAL PROJECTS

Coloring App (name pending) — *iOS Project*

A color-by-number app for 3D models. Under active development. View demo video.

Voxel Gallery Website — *Interactive 3D Model Gallery*

An interactive gallery of 3D models I created with MagicaVoxel. View source code.
